

Jyotish Forecast

JULY 2010

HIGHLIGHTS

Mars remains well-placed and strong in Leo most of this month, **It's a great time for creative projects where you want inspiration and stamina. Go for it!**

If you have a choice, **avoid beginning important projects before July 11th.** (We are in-between the lunar/solar eclipses of June 26th/July 11th.)

Several significant ongoing and upcoming planetary aspects (between Pluto, Uranus, Saturn, Jupiter, and Mars) indicate **some important worldly events and shifts.** More details can be found in the full forecast audio presented in June.*

A prominent energy is the intense station of Rahu & Ketu. Please see the **Rahu/Ketu Supplement*** for a description of opportunities and challenges for each Ascendant or Sun sign. This is in effect for the next year but **especially the next two months.** This is a good time to do the Rahu/Ketu planetary upayas, listed below.

Upayas to enhance Rahu/Ketu's positive effects – begin or do on a Saturday:

For Rahu:

- ◊ Wear your Vedic gemstone for Rahu (hessonite garnet or golden grossularite garnet) if you have one that's been prescribed.
- ◊ Chant Rahu's mantra (OM RAHAVE NAMAHA, or OM RAM).
- ◊ Use Rahu's yantra (shown here).
- ◊ The aromas (including incense) of camphor, sage, eucalyptus, and wintergreen can clear psychic debris as can sandalwood, lotus, and frankincense which are also calming.

For Ketu:

- ◊ Wear your Vedic gemstone for Ketu (cat's eye or quartz cat's eye) if you have one that's been prescribed.
- ◊ Chant Ketu's mantra (OM KETAVE NAMAHA, or OM KEM).
- ◊ Use Ketu's yantra (shown here).
- ◊ The herbs sage, calamus, bayberry, wild ginger, and juniper can help increase perception.
